

## FEATURES & BENEFITS

- ▶ The 'E' pattern Builder's Rod has a popular worldwide graduation pattern
- ▶ Double graduations makes these rods useful for elevation and height measurements
- ▶ Graduations are in centimeters on the front and numbered every 10 cm
- ▶ Height scale is in millimeters on the back
- ▶ Rods come with a level vial and a case
- ▶ The lightweight aluminum sections are in contrasting white, red and black colors and have round spring loaded locking buttons

## APPLICATIONS

- ▶ Grading
- ▶ Masonry
- ▶ Site work
- ▶ Forms
- ▶ Landscaping
- ▶ Foundations
- ▶ Sewers
- ▶ Slab work
