INVEST IN THE BEST

CONSTRUCTION & SAFETY

SECO Manufacturing **Invest in the Best** **For the Construction** **and Safety Industries**

SECO is known for:

Quality – SECO professionals understand real-world requirements for workers in the field and on the jobsite – our in-house engineering, manufacturing and production standards ensures quality for safer, more efficient outcomes

Product Line Depth – More than 1,600 products for the job, whatever the requirements – SECO engineers welcome suggestions from the field for accessories to meet the latest requirements for today's construction industry

Dependability – SECO products are designed for harsh environments – make work easier – finish the job faster – be safer on site

Ease of Use – efficiency is built in – products are designed for specific purpose in the field – be confident because the job is easier with the right tools

Tripods and Accessories

Tri-Max® Tripods

- ▶ The revolutionary design of this tripod series means this tripod will meet ISO standard (12858-2-H) right out of the box, and after years of field use
- ▶ The shape and size of the foot are designed to allow for a solid placement on any terrain
- ▶ Features a round head with large center hole to facilitate an easy set-up over a point
- ▶ Long lasting fiberglass

Hands Free Tablet Harnesses

5200-95

5200-96

- Provides secure hands-free operation during field use
- When purchased with the correct tablet bracket, each of these harnesses provide reliable hands-free operation
- Over one shoulder model allows for easy on/off operation (5200-95)
- Two-shoulder model allows for tighter movement and helps reduce fatigue for day-long operation (5200-96)
- Ball-and-Socket designs allows a tablet to be in multiple positions and very easy to adjust
- Mounts to tablet bracket using standard 1-1/2 inch ram ball connection
- 5200-95 and -96 come with 1-1/2 inch RAM ball
- Mount is made from a 0.080-inch (2.03-mm) black powder-coated aluminum sheet metal
- Tablet brackets allow all ports, connections, and antenna to be accessible with the bracket attached
